

Gatherings® at Aurora

Included Features

Home Performance Features

- Your Energy Series READY home is certified by the US Department of Energy as a DOE Efficient New Home™ and are so energy efficient that adding solar could offset most, if not all, of the annual energy consumption of the home.
- Advanced framing and insulation techniques including 2x6 walls to allow R-21 insulation in walls
- R-38 attic insulation to increase thermal resistance
- Highly efficient commercial grade windows with Low-E glass to reflect infrared energy & block UV light
- Whole house, fresh air system with Broan® Energy Recovery Ventilator to bring fresh outdoor air in while exhausting stale indoor air out
- Voltex® AL Smart hybrid electric heat pump water heater
- Goodman® Side Discharge- up to 19.0 SEER2, variable-speed inverter driven heat pump
- Foundation Wall Assembly to provide more protection from external temperatures
- Improved efficiency RHEIA® HVAC system
- Goodman® GTST connected thermostat
- Whirlpool® ENERGY STAR® dishwashers for better energy efficiency
- Exterior elevations with available siding, brick, & stone(per plan)
- CertainTeed® 30-year dimensional roof shingles
- Boise® floor system for quieter floors
- Low-maintenance James Hardie® fiber cement siding with 30-year warranty
- Energy-efficient DuPont™ Tyvek® Homewrap® engineered for cost savings while keeping home comfortable & durable all year long
- Steel raised panel insulated overhead garage door with decorative windows
- Low maintenance LP Smart Trim
- Garage door opener on 2-car door
- All new Beazer homes are built Network Ready*, providing the optimal combination of low-voltage & pre-wire components* that allows homebuyers to connect the technology of their choice after closing.

Components*

- 1" conduit from exterior wall to low-voltage panel to ensure easy future upgrades of Internet Service Provider (ISP) connection
- 30" Low-voltage panel centrally installed to ensure excellent Wi-Fi signal coverage & accommodation of ISP equipment without compromising aesthetics or functionality
- Three hardwired media outlets with a CAT6 (Ethernet/Data), located in great room, primary bedroom, & loft/office area
- One WAP prewire, centrally located. (wireless access point)

Standard options and features lists as well as depictions of floor plans and elevations (each, a "Standard") are expressly not made part of any Purchase and Sale Agreement ("PSA"), nor do they give rise to any contractual relationship between you and Beazer Homes. Standards are intended only to provide a general overview. You may purchase an upgrade or, in its sole discretion, Beazer may substitute an alternative as provided in the PSA. The PSA's Addendum A will define what is included in your home. If you sign a Standard, it is simply your acknowledgment of receipt of the Standards applicable to this model of home. Construction specifications include moisture and mold control, radon resistant construction (where applicable), pest barriers, effective heating, ventilating and air-conditioning systems, safe combustion, and healthier building materials. Please visit www.epa.gov/indoorairplus for details. Beazer reserves the right to make changes without notice or obligation to plans, elevations and pricing. Illustrations and specifications are believed correct at time of publication, and are not intended to create any warranty or contract rights. *HERS stands for Home Energy Rating System. It's a standardized system used to measure a home's energy efficiency. A lower HERS score indicates a more energy-efficient home. HERS is like a home's MPG label. A lower HERS score means lower energy bills and a smaller environmental footprint. Our average gross HERS score in 2023 was 42. To confirm our position as the #1 energy efficient homebuilder in the US, we looked at the publicly reported average HERS scores during June 2025 for each of the top 30 homebuilders in the US (based on how many houses they sold in 2024) as determined by Builder Magazine's list <https://www.builderonline.com/builder-100/builder-100-list/2025/> accessed on June 6, 2025. Beazer Homes reports our average gross HERS score i.e. without including solar power savings. We don't know for sure if the other builders report their energy efficiency scores (HERS scores) with or without including solar power savings. Any registered or unregistered trademarks appearing here are the registered or unregistered trademarks of and are owned by their respective owners. All plans, specifications, features, materials and appliances are subject to availability, change or substitution deemed advisable by Beazer Homes or as required by local building code or law. This feature sheet does not represent all standard specifications in your home. Details listed may vary depending on the plan, elevation, and options chosen. Please consult your New Home Counselor for details. ©2025 Beazer Homes. 25_07 BH CORP_12
