- Beazer Design Studio with selections available to personalize your new home

Standard options and features lists as well as depictions of floor plans and elevations (each, a "Standard") are expressly not made part of any Purchase and Sale Agreement ("PSA"), nor do they give rise to any contractual relationship between you and Beazer Homes. Standards are intended only to provide a general overview. You may purchase an upgrade or, in its sole discretion, Beazer may substitute an alternative as provided in the PSA. The PSA's Addendum A will define what is included in your home. If you sign a Standard, it is simply your acknowledgment of receipt of the Standards applicable to this model of home. Furthermore, due to our consistent efforts to improve our homes, Indoor airPLUS is the U.S. Environmental Protection Agency(EPA) program for new homes that builds on the ENERGY STAR® program to recognize indoor air quality (IAQ) features in a new home. Through this EPA partnership, Beazer Homes has committed to promoting Indoor airPLUS qualified homes that provide homeowners with improved IAQ. To earn the Indoor airPLUS label, a home must meet strict guidelines set by the EPA for improving IAQ. Just like ENERGY STAR, the home is certified by an independent third-party inspector. Builders employ a variety of construction practices and technologies to improve the IAQ in new homes. Construction specifications include moisture and mold control, radon resistant construction (where applicable), pest barriers, effective heating, ventilating and air-conditioning systems, safe combustion, and healthier building materials. Please visit www.epa.gov/indoorairplus for details. Beazer reserves the right to make changes without notice or obligation to plans, elevations and pricing. Illustrations and specifications are believed correct at time of publication, and are not intended to create any warranty or contract rights. All plans, specifications, features, materials and appliances are subject to availability, change or substitution deemed advisable by Beazer Homes or as required by local building code or law. This feature sheet does not represent all standard specifications in your home. Details listed may vary depending on the plan, elevation, and options chosen. Any registered or unregistered trademarks appearing in this document are the registered or unregistered trademarks of and are owned by their respective owners. Please consult your New Home Counselor for details. ENERGY STAR and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency. ©2025 Beazer Homes. 8.1.25
