

# Zinnia at The Preserve

## Included Features

### Advanced Home Performance

- Energy Series READY homes are the most energy efficient homes built by Beazer today. Certified by the U.S. Department of Energy as a DOE Zero Energy Ready Home™, READY homes are also ENERGY STAR certified, Indoor airPLUS qualified, and built so that the addition of solar could offset most, if not all, of the annual energy consumption of the home.
- Air seal protocols designed to reduce air passing in & out of your home.
- Advanced framing techniques to allow for more insulation in walls.
- Superior attic insulation to increase thermal resistance.
- Whole house, fresh air system with Broan® Energy Recovery Ventilator to bring fresh outdoor air in while exhausting stale indoor air out.
- High-efficiency Rheem® Hybrid Electric Water Heater.
- Foundation Wall Assembly to provide more protection from external temperatures.
- Improved efficiency Goodman® HVAC system.
- Energy-saving Honeywell Home programmable thermostat.
- Termite pre-treatment application.
- Energy-efficient DuPont™ Tyvek® Homewrap® engineered for cost savings while keeping home comfortable & durable all year long.
- All new Beazer homes are built Network Ready, providing the optimal combination of low-voltage & pre-wire components\* that allows homebuyers to connect the technology of their choice after closing.
- 1" conduit from exterior wall to low-voltage panel to ensure easy future upgrades of Internet Service Provider (ISP) connection.
- 30" Low-voltage panel centrally installed to ensure excellent WiFi signal coverage & accommodation of ISP equipment without compromising aesthetics or functionality.
- Three hardwired paired media outlets with RG6 (Cable TV/Data) & industry-leading CAT6 (Ethernet/Data), located in family room, primary bedroom, & loft/study area.
- 

### Kitchen Features

- 2-year delivery systems warranty
- 10-year structural warranty
- Beazer Homes Design Studio with selections available to personalize your new home

Standard options and features lists, as well as depictions of floor plans and elevations (each, a "Standard"), are expressly not part of any Purchase and Sale Agreement ("PSA") and do not create any contractual relationship between you and Beazer Homes. These Standards are intended only to provide a general overview. You may purchase upgrades, or Beazer may substitute alternatives at its sole discretion as outlined in the PSA. Addendum A of the PSA defines what is included in your home. Signing a Standard simply acknowledges receipt of the Standards applicable to your home model. Beazer Homes participates in the U.S. Environmental Protection Agency's Indoor airPLUS program, which builds on ENERGY STAR® to recognize indoor air quality (IAQ) features in new homes. To earn the Indoor airPLUS label, homes must meet strict EPA guidelines and be certified by an independent third-party inspector. Builders use various practices to improve IAQ, including moisture and mold control, radon-resistant construction (where applicable), pest barriers, effective HVAC systems, safe combustion, and healthier building materials. For more details, visit [www.epa.gov/indoorairplus](http://www.epa.gov/indoorairplus). Beazer reserves the right to make changes without notice or obligation to plans, elevations, and pricing. Illustrations and specifications are believed accurate at the time of publication but are not intended to create any warranty or contract rights. All plans, specifications, features, materials, and appliances are subject to availability, change, or substitution as deemed advisable by Beazer Homes or required by local building codes or laws. This feature sheet does not represent all standard specifications in your home, and details may vary depending on plan, elevation, and options chosen. Any trademarks appearing in this document are the property of their respective owners. Please consult your New Home Counselor for details.
